

Hot Tub Chemicals

We offer a variety of hot tub chemicals, and will also deliver to customers in the Lower Mainland of BC when we are in the area. We can deliver to those further away for a small delivery fee as well. See below for additional information on products we offer!

Mineraluxe Products

We highly recommend this product and use Mineraluxe cubes & packs at every client's home that we do maintenance for. **Some additional Dazzle products recommended to ensure proper chemical balance

Benefits to using these products include:

- Built in moisturizers to make the water nice and smooth on your skin.
- Replaces the need for many traditional hot tub care products (stain and scale products, enzyme cleaners, water conditioning agents, clarifiers).
- Easy to use - one cube and one pack per week, and you're set!

Dazzle Products

Our second most commonly used products are Dazzle Chemicals. We suggest all hot tub owners regularly use the following products to ensure the water remains perfectly balanced and clean.

- **Amaze**
 - Non-chlorine Oxidizing Treatment
- **Stain & Scale 2**
 - Protection against metal stains and scale formation
- **Performance Plus**
 - Makes water feel silky smooth & lightly scented
 - Buffer's PH for less bounce
 - Make's overall water balance easier to attain
 - Enhances general chemical efficiency and performance to reduce the quantity of certain chemicals needed and eliminate others.
- **Botanical Cleanse**
 - Natural Enzyme and Botanicals Waste Remover
- **Defoamer**
 - Silicone-based agent that suppresses foam immediately upon contact.
- **pH Plus**
 - Raises pH quickly and efficiently when low.
- **Alkalinity Plus**
 - High quality alkaline mineral that raises total alkalinity levels in hot tub water.
- **Bromine Tablets**
 - 1" bromine tablets for controlling harmful microorganisms in hot tub water.
 - Slow dissolving tablets for use in auto brominators or in floating dispensers.
